Portfolio: <https://soniya-das.github.io/>

PROFESSIONAL SUMMARY

Detail-oriented Python Full Stack Developer with hands-on experience in Python, Django, MySQL, HTML5, CSS3, JavaScript, and Bootstrap. Completed an industry internship building Django-based web applications and independently developed three real-world projects. Skilled in MVC architecture, ORM, REST API concepts, database design, and responsive UI development. Eager to contribute clean, efficient code in a collaborative software development team.

TECHNICAL SKILLS

Languages: Python, JavaScript

Frameworks: Django

Frontend: HTML5, CSS3, Bootstrap 5, JavaScript (ES6)

Databases: MySQL

Tools & Version Control: Git, GitHub, VS Code

Concepts: MVC Architecture, ORM, REST APIs, CRUD, Role-Based Access Control, Debugging

PROJECTS

Residence Association Management System | Python, Django, MySQL, HTML, CSS, JavaScript

- Engineered a Django full-stack resident management system with role-based access control, admin-managed registration, and private family profiles.
- Developed a multi-category payment module (subscriptions, event fees, donations) with automated email notifications using Django signals.

Smart Product Ingredient Analyzer | Python, Django, MySQL, HTML, CSS, JavaScript

Built a Django web application classifying product ingredients as Safe, Moderate, or Harmful using a structured MySQL database with color-coded results and health explanations.

- Designed backend classification logic in Python and created an intuitive ingredient search interface for real-time consumer analysis.

Job Portal Website | Python, Django, MySQL, HTML, CSS, JavaScript

Developed a full-stack job portal with dual-role authentication, dynamic job listings with search/filter, application tracking, PDF resume upload, and a Django admin panel.

- Designed a normalized MySQL database schema to manage users, job postings, and applications efficiently.

INTERNSHIP EXPERIENCE

Python Full Stack Developer Intern | NASS Online Practice Pvt. Ltd., Trivandrum | January 2026 – April 2026

- Developed Django backend modules including model design, URL routing, views, and template rendering following MVC architecture.
- Performed database operations — schema design, migrations, and query optimization — using Django ORM and MySQL; resolved 15+ bugs across dev and staging environments.
- Collaborated with senior developers in Agile sprint cycles, participating in code reviews and following industry best practices.

EDUCATION

B.Sc. Computer Science | IHRD College of Applied Science, Dhanuvachapuram | 2019 – 2022

Higher Secondary (Bio-Science) | Rosa Mystica Residential HSS | 2017 – 2019

CERTIFICATIONS

- Python Full Stack Developer Certification | 2026
- Java Programming | C-DIT (Centre for Development of Imaging Technology) | 2022 – 2023
